**Re: GT Projekt Letter of Recommendation**

To whom it may concern

GT Projekt – Geotechnical Consultants, located Parkowa 4, 62 080 Tarnowo Podgórne, were involved in the design/construction of A1 motorway Czerniewice – Brzezcie (35 km) and Brzezcie – Kowal (30 km) total length of circa 65 km, in the period from August 2010 to September 2012.

The scope of works GT Projekt included :

- geotechnical investigations and “in situ” and laboratory testing;
- verification of accepted design solutions;
- preparation of technological designs for foundation works and earth retaining structures;
- on site supervision of earth and foundation works by qualified staff;
- preparation of technical opinions and reports;
- general consultancy and advisory services.

GT Projekt led by their Managing Director Andrzej Wojtasik rendered its services in a most professional and timely manner. They at all times displayed a high level of understanding many of our difficulties and their approach in assisting our invaluable.

I would have no hesitation in recommending this company for any works in the future and should you require any further information/ clarification please do not hesitate to contact the undersigned.

Regards,
